1000.----- What happens if data sources for the IHBG formula are not available for a tribe?

In the event the tribe data sources are not available from the U.S. Decennial Census or any other source acceptable to HUD, the tribe may have an opportunity to request from HUD up to \$50,000 to gather data acceptable to HUD to demonstrate and justify the affordable housing need formula allocation for the Tribe.

1000.328 What is the minimum IHBG amount that a tribe may receive under the need component of the formula?

The minimum block grant allocation in any year to a tribe under the need component of the NAHASDA allocation formula shall equal no less than \$100,000.00 in need based grant funds annually, provided that:

- 1) Any recipient of NAHASDA funds, as defined at 25 U.S.C. 4104(18) that receives more than \$200,000.00 in FCAS funds shall not be eligible for this minimum need based allocation. If the recipient is a TDHE that receives funds for more than one Tribe, the funding allocated to each Tribe shall be counted for the purposes of this regulation to determine eligibility for the allocation. If an Alaska Native Regional Corporation receives more than \$200,000.00 in funds for FCAS located in an Alaskan Native Village Formula Area, the village shall not be eligible for funding under this regulation; and
- 2) Any recipient that does not demonstrate that it has a household at or below 80% of median income as defined at 25 U.S.C. 4104(14) shall not be eligible for funding under this regulation.
